

Mod. 30.30 A DV 60° CNC TOUCH

**NEW
MODEL**

Model		30.30 A DV 60° CNC TOUCH		
		90°	45° Rh	60° Rh
Cutting Capacities		300	225	150
		300	210	140
		300x300	180x300	100x300
Blade Dimensions		LxWxH mm 3820x27x0.9		
Overall dimensions		LxWxH mm 2800x2000x1800		
Machine Weight		Kg 1.490		

TECHNICAL DATA

Cutting Speed	m/1' 20-100
Working Height	mm 835
Blade Motor Power	kW 1,5
Hydraulic Pump Motor Power	kW 0.75
Cooling Pump Motor Power	kW 0.12
Shipping dimensions	LxWxH mm 3.000x2100x1850

RECOMMENDED TOOTHING IN RELATION TO MATERIAL SECTION

	Thickness	Z/1" INCH		Dimensions	Z/1" INCH
	2÷6	6/10-5/8		<50	5/8
	6÷10	4/6		50÷100	4/6
	>10	3/4		>100	3/4

RECOMMENDED BANDS: BIMETAL KOBALT M42

MOD. 30.30 A DV 60° CNC TOUCH

New automatic bandsaw machine at CNC control with bow up/down movement and carriage motion on recirculating ball bearings rails. Ideal for cutting small and medium size tubes and solid items up to 60° on the right.

TECHNICAL DATA

Base and bow in welded structure • Bow and vice movement at hydraulic control • Automatic fast up/down bow movement controlled by feeler pin • Perimetral safety protection • CNC to control all the machine functions, to store up to 99 cutting programs and to set the blade speed through frequency converter • Worm gear reducer unit • Mechanical blade tensioning controlled by limit switch • Cutting progress with infinitesimal adjustment • Double safety button for cycle start-up • Low voltage electrical system according to EC rules.

STANDARD ACCESSORIES

- Touch Screen
- Feeding carriage controlled by Brush - Less motor
- Cleaning Brush
- Chip Conveyor
- Frequency converter

ACCESSORIES AVAILABLE ON REQUEST

- Material infeed/outfeed roller track available in various sizes
- Vice pressure reducer
- Mechanical bundle clamping device
- Hydraulic Bundle clamping device
- Dry cooling device

Hydraulic bundle cutting

Control panel

Adjustable vice pressure

Dry cooling device (lt. 3)
